Bona **VERTICAL**TM

Take your love for wood off the floor!

Bona VERTICALTM is a firm-elastic silane-based construction adhesive. With an extremely high initial bonding strength and rapid setting formulation, and is perfect for horizontal and vertical applications alike. The bonding process can be accelerated by lightly misting the substrate prior to application, and/or lightly misting the adhesive once applied.

- ✓ Great for trim, starter rows, treads, risers, stringers, balusters, stairs, vertical applications and wall treatments
- ✓ Easily removed from prefinished surfaces
- ✓ Excellent adhesion to most substrates
- ✓ Uses a standard 10 oz. caulking gun
- ✓ Zero VOCs
